Release Date: April 12, 2012

**FOR IMMEDIATE RELEASE**

**Public open house planned for HP/Agilent Open Space Design**

The public is invited to an open house for the design of HP/Agilent Open Space. The April 26 open house will offer an overview and details of the Preferred Master Plan for HP/Agilent Open Space.

The open house is informal and citizens can drop in any time 4- 6p.m. at the Maple/Spruce Multi-purpose Room of the Chilson Recreation/Senior Center, 700 E. 4<sup>th</sup> Street.

Citizens can view the Preferred Master Plan prepared by AECOM consulting firm, ask questions, and speak one-on-one with staff from the City and AECOM. The meeting is informal with no presentation or group discussions. Citizens will have an opportunity to comment on the proposed plan and possible recreational uses for the site. Suggestions for a new name for the open space will also be solicited at the open house.

The HP/Agilent Open Space is a 121-acre open space planned for construction this fall to open the site for public access. The property is located south of 1<sup>st</sup> Street, between Taft and Railroad Avenue.

The consultant team has been refining the Preferred Master Plan since three draft alternatives were presented and discussed at the February design workshop. In addition to feedback from the workshop, more than 50 comment forms were submitted to the City with suggestions for open space facilities, site amenities and proposed uses. Master planning of the open space should be completed in May and construction could begin this fall. The property is currently being rezoned and the Site Plan will be reviewed through the City's development review process.
