RE: 2006 Quality of Life Survey

The 2006 Quality of Life Survey was distributed July 3, 2006 based on direction from Council to conduct an annual survey using “in-house” resources and every fifth year hire professionals with survey expertise to conduct the survey (2007).

The survey intentionally requests feedback on services, as opposed to issues. Twenty-four statements related to quality of life services were listed on the survey. Respondents were invited to write general comments on the front of the survey. If they marked that they “strongly disagreed” or “disagreed” with any of the quality of life statements, they were asked to provide comments so that we might work to improve. Most respondents wrote comments regardless of their rating. The survey tool has been included as Appendix I in the attached report and all of the comments received have been included in Appendix II.

Three thousand surveys were sent out in an effort to ensure that there were at least 382 responses necessary to achieve a 95% confidence interval of +/- 5% points. This was criteria consistent with the professionally selected sample size three years ago. We received 839 surveys by July 21, 2006 for a 28% response rate (839/3000). The survey sample was selected by a computer program generated by the Information Technology Department. The program selects every seventh address in the utility billing database. The program skips previous sample selections to ensure that over time the surveys reach as many of the citizens as possible.

As surveys were received, they were entered into a survey software tool that generates reports on the responses. The attached report summarizes the results of the survey. The citizens rated quality of life very well in Loveland.

Results

Greater than 80% of the citizens strongly agree or agree that Loveland is performing well on 12 of 24 quality of life services. Two of those statements generated positive responses from 90% or more of the citizens that responded to the survey (reliable electricity and feeling safe).

Over one thousand five hundred responses were submitted on the surveys. Traffic congestion, job opportunities, quality development, a second Wal-Mart and youth activities for teens seem to influence responses.

All responses are available for your review in Appendix II. There appears to be some common concerns related to:

- need for higher paying jobs;
- availability of youth activities;
- rapid growth & development; and
- alternative transportation options.

This year's survey included one question about internet usage, 80% of the respondents indicated they used the internet monthly (61% indicated they used the internet daily), while 18% indicated they rarely or never used the internet (13% indicated they never used the internet).

APPENDIX II – General Comments: 2006 Quality of Life Survey

General Comments and Suggestions

We both are old, old, old and cant drive anymore so don't get out and about anymore

I was disappointed in the council when they purchased the new EXPENSIVE chairs. As retired teachers, my husband and I sat on wooden chairs that were any where from 50 years old, and we used them for 180 days/year. We would not have thought to ask the tax payers for this kind of extravagance. My current desk chair at home came from office depot + sits quite well!

I wish the city was family friendly. I am no longer comfortable taking my children around of fear of inappropriate art. My husband and I were born and raised here but its not our home anymore, we prefer to be distanced from the new age of liberalism

Great summer activities and free and try and offer more live year round and send a monthly flier in mail with community events free and charge for Rialto, museum, parks, concerts etc. We don't get paper so we are left out and uninformed, also please make more fun safe stuff for teens (business deters bad behavior)

Overbuilt, low paying, slave wages, housing dropping off like a rock ought to be like it was in 1986 around here in two year. but like now and then you made developers and realtors rich off slave wet backs.

I would like to see more bike trails, more public swimming opportunities. I also feel that a larger concert venue + possibly a whitewater park would improve our economy.

I would like to see a rec. center or a pool on the north side. I would like for my kids to take swimming lessons, but it can be a hassle to have to drive very far

When I moved here 22 years ago I chose Loveland for its unique character and because It wasn't Ft. Collins. Now I no longer know which town I'm in. The retail development on 34 makes Loveland look like Aurora. I glad I chose to live in "old town Loveland" so I can still pretend Loveland's a small town. And kudos to the now downtown group-downtown looks better than ever!

I am 92 years old. Live in my own home at 1219 Hard Place Loveland. West of Loveland off Taft road. I have no complaints or suggestions. I don't find any faults with our city. I enjoy living here.
Sincerely Elizabeth G. Zimmerman

We have just moved to the Loveland area, three months ago from out of state, so we are still learning about the services that are available to us.

Thank you for this opportunity. We love this town and we love this state but we seriously need to "up the ante" as far as wages and benefits are concerned. We're not talking about minimum wage increase. We need to attract employers who will care families and their needs.

City Council needs to have regularly scheduled meetings with the board of education. These two entities need to communicate. How can you approve all these developments without consideration to our schools? This is the one point that I am very disappointed about here in Loveland.

Disagree with city manger concept. Should have an elected mayor as well as city council buildings cope should require more brick buildings due to extremes of weather. City police vehicles should be used 24/7 not become personal vehicles for officers.

We have noticed how Congested Highway 34 has become as of lately, also we believe utilities so much higher as of these last three years.

The sidewalk situation in Loveland is terrible. I have a child who I push in a stroller and we'll be walking along and all of a sudden the sidewalk just ends (parts of 8th street). Sometimes not only is the sidewalk gone but someone has planted shrubs so you can't get pas t(29th and Garfield, NW corner). This is dangerous and frustrating.

Overall is okay. Kids cannot just go have a ball game in the park like 30 years ago. City council is more worried about comfort than really getting into the city.

Love Loveland but UNHAPPY with city council giving McWhinneys anything they want and NOTHING for Loveland's small businesses!!

APPENDIX II – General Comments: 2006 Quality of Life Survey

We need to raise some of the speed limits and do something with the trains, they are loud and long.

City council and Development Comm. Needs more citizen ideas and or opinions. Not rich land owners and developers dropping money to greedily buy up and destroy cities views

Library services should include on-line book rentals, user friendly websites, and useful information for students of all ages.

I think that the recycling program is wonderful. I would like to see mandatory water conservation.

This is a great place to live if you can afford to

I think we are growing too much- it may be hard to sell my house if they keep building so many new homes. Also I don't want Loveland to look like Denver, Just houses after houses.

Nice sports people!! (love it) bad "Watercap potholes" overall- great city to live in and raise kids

My wife and Myself are 81 years old and don't have much input. Except to say the things are ok
Eddie and Jamie Sto

We own our own business. We are house painters. we work all over Northern Colorado.

Too many Loveland police vehicles at Longmont and Fort Collins restaurants. The council is addressing plus favoring developers only, Metro Loveland needs major help, and is receiving none from the present council

I fear sometimes city makes too many compromises when attempting to get more tax dollars from new businesses.

Something should be done about trash accumulating in the yards. Gives a bad name to the neighbor who keep there yard nice and tidy, but live next to pigs.

The city should do more to help with traffic, such as adjusting time at streetlights and adding more lanes, like on 34 from Lowe's to Centerra. And make the developers pay for it!

After spending two weeks in McKee Hospital I am so impressed with the doctors and all the services there. The meals are awesome!

I would like to see the City Council and the City Manager make improvements in the down town area! e.g., better lighting, more pedestrian friendly, more attractive street scape, cleaner appearance in general more (attractive) parking areas.

We need housing less than 500\$ per month for senior and transportation from complexes

Begin controlling the prairie dog population & area they are able to roam in the Lincoln/Monroe & 37th area. Soon they will begin invading homes on the south side of 37th as they are already across that street.

I BOUGHT A HIGH BACK SWIVEL CHAIR PADDED W/ARMS CHAIR AT SAM'S CLUB 7 YEARS AGO FOR \$89 , I SIT IN IT AT LEAST 4 HOURS A DAY. STILL IN GOOD CONDITIOIN. I'M NOT A SMALL PERSON! HORRAY FOR MR. SKOWRON!! \$1000 ALMOST FOR A CHAIR?!? WASTE OF TAX PAYER MONEY! CAN WE GET SOMETHING ELSE BESIDES CELTIC AND BLUEGRASS FOR FOOT LAGOON? CLASSICAL? BARBERSHOP? COUNTRY? EASY LISTENING? CHRISTIAN? OUR ELECTRICAL SERVICE IS GOOD. PARKS NEED MORE UPKEEP AND STRONGER ATTENTION AND FINES TO GOD OWNERS AND SPORT TEAMS WHO LEAVE TRASH.

By in large, Loveland is still a good place to live. City Parks, downtown development, and the overall cleanliness of the City are strong points. Traffic congestion, lack of high paying jobs coming into the city and overwhelming residential building are negatives. I would like to see a limit on the building and an increased effort to bring in new employers(not retail) to the areas so people can afford to stay in the area.

Loveland remains a very good place to live but the quality of life has been compromised (in my opinion) with the unbridled housing development and McWhinney expansions. It is no longer noted high as a place to move to as it once was when I was looking to retire

Too many fees are waived for developers. Developers are not paying their share for what their developing is costing Loveland residents for services such as police, Fire and especially schools

There is a large senior population in Loveland. We should have bocce courts and lawn bowling counts.

APPENDIX II – General Comments: 2006 Quality of Life Survey

While Loveland is certainly a nice place to live I am a "country" type person - I feel Threatened by the endless growth If I were younger I would probably seek a different place to live. Also the cost of living is steadily rising which will eventually be a problem for a person on a retirement income

Streets are not bad, but manhole covers are rough in our area. There is lots of trash from Loveland High. Street cleaner doesn't come by often enough. Some railroad crossings are bad (Lincoln)(4th st.)

Would like the EMS/ fire dept. to have shock auto pulses. Finish the bike trail -make them connect-that would be great!

I drive to Longmont to the new Wal-mart because I don't like the only to get out of Loveland's Wal-mart- I don't like the roundabout at all, people intimidate you, they drive too fast through them.

Many kids in the cattail pond area walk to school at Walt Clark. There is no sidewalk for them on the east or west side of Wilson to walk.

We love Loveland. Our only concern is the lack of enforcement on speed limits and loud radios from passing cars, (Rossin drive out by Mariana Butte)

My question: Why do we allow so many homes, condos, etc. being build and yet not enough schools and resources to support the growth? The town and schools are suffering and no one wants a mill levy? Why the cart before the house?

Overall, Loveland is a wonderful place to live. I would like to see a Kohl's store in Loveland. Also, a food store like whole foods. If Loveland had these stores I would never have to go to Ft. Collins.

Why are we always 20 years behind on development of thoroughfare? We must have an east-west thoroughfare on the north side of the city. I know of no plans to develop one. Our last hope is 57th street with a connection to county rood 30 through the dairy farm. Any chance of doing something about this.

Services needed for homeless and transients without encouraging more to come here. Roundabouts aren't working confusing to visitors, elderly and me. Need a drivers license bureau. Need a better system to get unemployed employable people off of charity and better help low income families that are working and trying

Loveland sucks. I would get out of here if I could afford to.

1st street should be a 4 lane road all the way to Franklin from the west side of Loveland. Repeatedly changing from 2 lanes to 4 and back again temps people to race down the road.

Very wonderful town

We have lived here just over a year and are very happy.

Mostly work from home address

Please do not allow 2 Super Wal-marts. That is ridiculous and a waste of beautiful land and views. Please preserve our views between Loveland and Ft. Collins. Maybe we can buy some land?
PS: Great job on the bike trails =)

Loveland is becoming overrun with houses like the rest of the front range. Air quality is becoming worse. City buses and all city vehicles should be emission free. Loveland is a blue with the rest of the communities along the front range-except no employment available.

Loveland had been a good place to raise my children.

Quit approving subdivisions that we cannot support w/water, overcrowding our schools and roads

I can't afford a computer. I am handicapped, so I don't get around much. I do not feel that I can give a fair evaluation at this time. I was impress with COLT and most of the employees who helped get transportation for my 93 year old Aunt. The people in the office were great. However, not all drivers were great. One brought my aunt into the garage and left her because it took me a few minutes to get to the door. She tried to get herself up the ramp and fell backwards in her wheelchair. No, I did not report this.

We are semi-retired and really enjoy living in Loveland. It is a quality city!

APPENDIX II – General Comments: 2006 Quality of Life Survey

Dear City Council,

Since buying my home in October of 05 I truly admire Loveland and the people. Unfortunately I can really hear traffic noise on 287 south of 402. Also, I can see that art classes etc. are in the daytime and I cant find places to meet people in my age bracket(single 50-60). Nonetheless I love Loveland and plan to stay-Thank you. Margaret Royale

Enjoy Loch Lon park at the back- will appreciate good drainage that forms with the rain and the snow.

Loveland in general is a great place to live. I do worry about gangs and bad kids that attend our schools, weapons, drugs, bullies, etc. I think severe punishment should be used for bad behavior- too many chances are given to the bad kids .the safety at school is a very big concern to me. I want my child safe.

We moved to Loveland thinking it would be an excellent place to raise our kids- we haven't been disappointed

This was a lovely town to live in at one time, but it is growing to fast. We are building way more than is needed. We have a lot of empty buildings. It is still a beautiful city, but getting to much experiment table here.

Police services seem slow and bumbling. See comments on back. Otherwise, good city services. I think the city should be more involved with the schools - The school district is poorly managed. Quality teachers and administration are leaving because of it. soon businesses will go elsewhere. p.s. Why is the mayor invisible?

The road conditions on just about every major artery in town are terrible+ extremely rough, especially intersections such as Taft and Eisenhower. The city needs to quit working on roads that are fine and actually fix the bad ones

City Council needs to listen more to citizens instead of doing what they want. The council chairs were a good example. Most citizens want less expensive but council did it anyway. We need to spend less on consultants. Don't have qualified council employees. then we should get someone to take their place. Also don't be giving out big incentives when someone quit or is fired. Also don't be using tax dollars for gifts or parties for retirement. I am sure very suggestions and comments will go unnoticed.

Stop the growth.

When is this town going to wake up to the fact that this town was never laid out to be big. There are only 2 thru roads north and south and only 2 thru roads east and west. I'm almost afraid to drive on Eisenhower because of heavy traffic. Council needs to think about people instead of more money to spend. STOP GROWTH . Let someone else have the headaches.

We need better landscaping (such as too much grass in areas like Boise village) Why have so much grass to be watered & mowed - We feel the city is 10 years behind in that area.

On the city bill for Water and Power, sewer costs are much to high. What's with all the little add-ons!!!

Over all Loveland is an excellent community to live in. Thank you and keep up the good work. I especially appreciate the fact that the population density is less than in other front range communities, it gives our city a more open spacious felling. please do not over develop our city.

Jordache Drive has been resurfaced 3 times in 12 years. Resurfacing creates a huge mess and it lasts for several months. Please don't resurface our street again for al least 5 years. Save a little taxpayer money!

Either the speed limit is too slow or there are too many speeders

I moved to Loveland 2 years ago because of family connections. I am pleased that I moved here because of the safety and recreation that the city provides. City leadership needs to be improved. The Boyd lake debacle highlighted enforcement and permitting problems. Streamline the process and get it right. The school system was by problems. It needs more teachers and higher student standards. Failed student should not be promoted.

We just received one trash flier/pass which has been hard to replace (we somehow lost it immediately)

The proper authority needs to repair the cement at the boat ramp at Lake Loveland by the statue of Liberty. I know of several accidents/injuries to pedestrians, skaters, and cyclists.

I hope all the city council members are fired ASAP! The whole "Chair" phase was not only unacceptable, but made us a laughing stock in fellow towns. You proved to Denver, Boulder, and Ft. Collins that Loveland truly is still "small town"... with big ass expensive chairs.

APPENDIX II – General Comments: 2006 Quality of Life Survey

With all the I-25/34 development- traffic on East Eisenhower is getting very bad- would like to see traffic lights on Boise and 402 to encourage traffic to divert from 34

Really need to do something to improve constant water pressure. It goes up and down. The traffic system for the airport and ranch activities is atrocious. It amazes me that 4 lanes of traffic and at least 3 ways in and out of the ranch and fairgrounds were not done when they were built. What were you thinking

I retired here from the East Coast and I love it.

City needs to spray for bindweed in ditches near City Parks building on Dotsero. Our lawns are being invaded by seeds of the ever blooming weed in your ditches.

I moved here because it was safe-no Mexicans. I paid for living in a 50% community

I called city re-bush had grown up and hiding feie by drout nicely park- no one wants to take walk- passed on to one dept. after another! and yes plant still hides hydrant. (for mount park)

I feel Loveland is a great place to live. I wish we offered more jobs that pay better.

Loveland is a great town. We would like to see it spruced up a bit. There are lots of empty or neglected businesses and homes. The streets are also getting to be in bad shape.

I do really think the yard compost is great, Nice to see it being used instead of fertilizing the landfill. I prefer natural methods of pest control (bat houses, etc.)

In the past 2-3 years our cars have been broken into x2. We now feel like we have to lock our doors (cars and house) days and nights. There have been two other episodes in the same timeframe that our cars were vandalized-Traffic congestion is terrible. It is no unusual to wait through 2 cycles of a light.

We eat lunch several times per week at the senior center; more for the contact with other people, than any other reason. Please keep this activity going as it means a lot to older people. Thank you

Growth should be curtailed. The more Loveland grows, the more the following will increase: Crime, gang problems, Water shortages - especially water. As you apparently do not realize: Our water is finite, so growth cannot be infinite. When I talk to people about growth, I use the following illustration: Within 50 yrs. we will be buying out water at the supermarket for, possibly, \$50 per gallon.
--Jim Manthey 904Jefferson 669-2538

Traffic on I-34 is STILL a nightmare and getting more vivid every day!

The housing press seems to be on the rise. Much more money for much less house-discouraging for new families that are just starting out.

Do not have anyone or I should say know of anyone with my working hr who can teach and facilities are not open when I can go to them. I do find the 34 being the main road in and out and all the tourist is a tragedy!

Housing too expensive for seniors and lower paid residents- Need to attract a restaurant like country buffet- also need good seafood restaurant, Enough Mexican, hamburger, Oriental and pizza places.

1. Eastside town sewer still smells.
2. the current growth & development is good as long as there is water to supply everywhere.
3. Bus routes should change with new malls & parks opening- more stops to these places.

Limit growth

Add a dog park

We would like an organic supermarket like Whole Foods.

New roads should be 2 lane in each direction i.e. SW 14th between Wilson and CR21 before its too developed. Need wider road at 402 and Boise. Traffic has to stop on eastbound 402 so cars can make left hand turn. Too many junk cars allowed in neighborhood yards .Some places really mess up a whole neighborhood. Like the messy place on no. side of 1st street near Franklin. Corner of Carlise and Van Buren. People should have more pride in their places.

APPENDIX II – General Comments: 2006 Quality of Life Survey

I appreciate the mosquito control. We like living in Loveland but would like seeing a slower population growth Think 900\$ plus chairs too big a waste of tax payers money- how many have that expensive kitchen chair in their homes. No one I know of plus they are used a lot more

Loveland is a friendly community. There are a few eyesores around town that need cleaned up- lots, unused buildings, etc.. these distract from the beauty of the town

"Quality-good paying jobs" need to be retained in the community. Retail shops and restaurants are abundant but really offer lesser security and more turnover... too much shopping east of town and not and not enough shopping areas distributed evenly. The movie house is too far out for most youths now. Something like Cinema saver six would be nice.- no really good places for teens to gather that could give them a social place that would be safe and fun. downtown could offer more for adults too-kind of like old town of like old town in Fort Collins. I-25 access to highway 34 needs to be made to travel easier

Need to City manager and public works director City Council needs to stop approving any building

Where are the street cleaners! have they been in this area this year!!!

I was sent the exact same survey - sent to the same name, address, etc.
I think the city could save some \$ by only sending out one survey per person/address.

- 1.more downtown shopping opportunities--make Loveland IN town-- not just an I-25 stop!
2. traveling across town can be slow at times
3. wonderful cuts opportunities! Keep them coming - maybe include neighboring communities
4. too many houses being built with not enough "older" homes selling into the real estate. efforts in the arts

Too many retail! Growth-- where are the "high income employee opportunities is. H.P. or Agilent. Does planning commission city ever turn down growth?

We worry about the area in which we live regarding demographic changes. We moved to Loveland because of the crime rate. We are worried about the number of sex offenders and increase in gang activity in the Allendale area specifically for the future of our young children

Its good to see more awareness on the drug and gang problems. I do feel we as a community and the city council are letting the McWhinney corporation lead us into a bad financial situation.

Too many tax measures for retiree an a fixed income and within keep going up.

Time to think about a decent mass transit system

Thanks for asking

Increase up keep of sidewalks, streets and recreation traffic with clearance of debris, broken glass bottles, trash deceased animals many areas are overlooked.

I am 83 yrs old, relatively newcomer to Loveland. Am reliable to answer some of these questions, have not used many services and do not know conditions of some

- (1) Please educate and remind us through out the year on recycling/What can be recycled
- (2)Please improve timing of lights (traffic) and increase # of Left turn lights...Example Wilson & West 1st
- (3)We've lived all around the country and this is by far the best city to live in.

Personally I think Loveland is getting too big

City ordinance regarding mowing weeds , abandoned vehicles, trash etc.

Need to be more strongly enforced to beautify our community and enhance property values.

Library budget has decreased as the population increased.
Bring a whole foods grocery store to Loveland.

I am charged for trash on my utility bill, I am charged \$dollar per bag. I am charged \$6 for recycling products

APPENDIX II – General Comments: 2006 Quality of Life Survey

Loveland is a good place to live. I enjoy living here

Put a fine on all the people that blow their tree leaves onto the street and never pick them up.

Internet- daily Loveland is an incredibly beautiful city. Wonderful, friendly people. Big enough to have everything one needs and small enough to be able to get there. Only concern I have is the growing use of methamphetamine and it's danger to our young people

More mosquito

New apartments on Lincoln and 5th street has destroyed the look of down town, the small town fell of Loveland has been ruined by greedy realtors

This town has nothing going for it. No jobs that will pay for the high rent that is here. Loveland, CO is not a welcoming city.

My work area covers NE Colorado, SE Wyoming and the panhandle of Nebraska

The reason I live in Loveland is because of the great quality of life and I feel the city council and the city manager are doing an outstanding job

Keep open space; add more whenever possible. Start up with development + avoid sprawl. use traffic cameras.

Over-development of Loveland adds concern for support of our infrastructure- roads water, schools, etc.

Enjoyed Loveland much more when it was just a town

We need to slow down growth so infrastructure can keep can keep up. highway 34 in bad shape- city needs to protest louder to feds. Ditto for 34 -I-25 intersection and Windsor exit.

What's going to become of old movie theatre across from Wal-Mart? Wasted unoccupied real estate space not good for city to gave unused bldg. spaces!

Why so many Walgreens? -3 and bldg. I smoke. How about a Longs Drugstore. Centerra small us mice, I would like to see a TJ Max. Too many fast food places, not enough quality upscale food restaurants, why? Don't send me anymore surveys! Going thru chemotherapy treatments for ovarian cancer!

Thanks for being interested in my opinions! I am glad I don't live out east-there is just too much traffic out there! The core of Loveland seems more like the town is was 32 years ago when we moved here. Please work on the downtown to continue to improve it!

Loveland overall is a great place to live. However it seems that good paying jobs for college grads. Skilled laborers or manufacturing are fear and far between. HP/Agilent didn't help matters.

Since we moved here 6 years ago, we've been happy.

I love this city - just wish shopping in town was better.

I have a question about driving. Is it legal or illegal to make a left turn across a lane into the right lane? It is so common here people always wait for me thinking I will do it. In New York it is illegal to turn through lanes.

I feel that Loveland should publicize more of the senior activities such as the senior dances, in supplying the food for the particular activity.

I moved from the east coast and giggle when I hear people complain about traffic. Loveland doesn't have traffic from my point of view. I do enjoy the parks and walking paths. Loveland seems to have lots of activities for young families as well as retired couples.

Survey should come in a pre-paid return envelope! I almost decided against sending it in.

The fiasco at north bay lake is ridicules the whole area is torn up and filled in by the developer who seems to do anything he wants ruining a lovely area even tearing out tailed hawk nests. Criminal!!

APPENDIX II – General Comments: 2006 Quality of Life Survey

Work towards widening I-25 to 3 lanes is important; light rail to Denver plus FTC would be nice. Manholes are horrendous - can't you smooth those over better?; More bike lanes / trails; love recycling program including new paperboard/ cupboard curbside pickup

We need more upscale restaurants with affordable price structures. New shopping centers should have at least 1-3 new stores e.g. pottery barn, Williams-Sonoma, Crate and Barrel, Coldwater Creek excellent addition at Centerra.

The growth in Loveland is great, economically- I just hope the city planners are going to strive to keep it "green", with plenty of bike lanes and sidewalks and not succumb to rapid growth car - centered development. It would ruin Loveland.

All of this growth is ruining this community. Growth is not paying for itself. As a person that has lived there 76 years, I can hardly afford my house taxes. How pretty it was here, now all you see is concrete. How sad.

There is a glut of homes for sale in Loveland because of all the new homes that aren't selling.

Loveland has lost its small town feeling. I feel like the McWhinneys brothers own Loveland and control the development. Traffic is a mess due to development. Buildings of businesses that have closed are left vacant while new buildings are going up every where- very unattractive.

Monthly newsletters with electric bill is well written, very informative, good subject matter and is eagerly read each month.

As a senior citizen in poor health, these are a lot of the following questions we do not take advantage of and do not have a computer.

Growth is a major issue and is not paying for itself, and reduces quality of life for residents. public and private services are less efficient as a result of growth.

Too much emphasis is put on park. We need quality club houses at Marianna Butte. We have 2 of the best courses in the region and the poorest club .

Quality of life could be improved if cases were enforced for things such as uncontrolled animals, trashy yards, and overgrown alleys. Sidewalks are missing in some of the older parts making walking in the streets necessary.

Police services need to be improved, large trucks, trailers, boats (pontoon on 8th. West to Harrison St. been there for months on the street.) Ticket red light & stop sign runners, bikes included. I see very few fines on the above in our paper.
Thank you

We are very happy living in Loveland.

Upon reflection of my last city bill I can no longer afford to water my grass- hope mother nature will green up. Cost of living to high, jobs paying too low

I have lived here for 46 years and I think inconsiderate drivers are a big problem,

Wouldn't live any place else!

Great place to live but taxes too high

I am very upset that the open space near my home is being developed into "Boise village". And why do we need to Wal-marts? For these reasons I know that I will not be staying. I am also sad the movie theatre is so far away now.

We are reaching the age where we would not be able to defend ourselves, but we feel safe here.

Loveland is as good town a great place to live.

Streets are our worst attribute. Cover plates are too high or too low on every street. (even brand new lower Taft!) Almost all streets have trenches cut into them within 4-5 weeks of re-paving!! What happened to planning ahead!? I know there are adjustment rings to make covers the proper grade; why don't we use them?

If you could get rid of the sex offender and dogs next door- I went to court & the Judge thought I was kidding.

APPENDIX II – General Comments: 2006 Quality of Life Survey

Lovely city, wonderful people

Since very young and very old sometimes are at the bell park why can't a net system be set up to protect watchers from foul balls. I've seen others parks do this.

Biggest complaint is the manhole covers in the road. When you drive over them it really affects your car/truck why can't these be moved to center of street or covered around them to make a smoother road

Would like to see something done with the trashy apartment complex east of the 7-eleven (Eisenhower) it is an eyesore. Looks bad for the community. Public pool on North end of town would be nice.

I am appalled by the City Council's flagrant abuse of their spending power in regard to the \$900 chairs-and by the way they rushed to spend the money one day after their intentions were made public. I find myself distrustful of their integrity as a group and feel soured by the whole episode.

Buses that don't take an hour to go for a ride that would take 10 min. by car!

Save gas put paper plus card board bins back in shopping areas people would use them more plus save gas now you have to drive to a recycle center. too many minimum wages jobs being made that other problems/ unaffordable housing, not enough money live on etc. Slow down our super growth rate use are running out of water and other services.

Library is over crowded/over used- no place to expand- possibly build a branch or two- Loveland has no decent paying jobs- Loveland needs affordable housing- Loveland needs a homeless shelter

Keep up the good work.

NO MORE housing developments. There are new homes sitting empty. I have had my house for sale for 1 year and no decent offer.

We live in the Briarway retirement park. It is quiet and restful here. The post office, McKee hospital and orchards shopping center are within a close proximity to us.

I like Loveland and will probably stay here indefinitely. The lanes here are GREAT + appreciate them as biking is my alternate transportation

Please take care of the streets in downtown Loveland(Paint center lane line and parking line, etc.)

1. Its time for a dog park. Old fair grounds?
2. Allocate tax revenue from McWhinneyville to revitalize downtown and old fair grounds.

You ask for my opinion, since I came to Loveland I've had nothing but trouble. It seems that there should be one area that I could say I'm happy about that change. There is one. It is a quiet area I live in.-After thought please don't put the triangle nude sculpture in the future church area-Pauleen Erlick

Let the city council sit on folding chairs. you can get 4 of them at Sam's for \$25.00 give the \$10,000.00 to the needy, not the big butt Democrats on the council. one \$10.00 piece of rope could be used to hang all of them one at a time.

4 way stop at park & Boise!!!
Cars travel too fast on Boise!
Are you going to wait until a small child is killed???
Wake up and smell the coffee!! Please, before its too late!!!!!!

Stop all the construction in Loveland this is a very nice town we don't want a big city

Loveland still in the "bronze age"

Enforce the cat leash law. We have several neighborhood cat who goes to the bathroom in our back yard.

APPENDIX II – General Comments: 2006 Quality of Life Survey

On development- what you doing to do when water RUNS OUT. Too much crime, and gang activity. As long as city keeps building only going to get worse, getting too costly to live here, with all the increases, taxes, services, and GREED+ corruption, the people don't have a chance on fixed income. I don't have a blank check like the city. City needs to tighten belt and stop crying to tax payers every time they want something

The arrogance and lack of respect for the general public by the top administrators counters all other positives.

34 is really congested.

Was a resident of Loveland growing up - moved away and haven't been back since '99. We do not enjoy the way the city is growing so fast! We don't want to lose the small town quality of life

I feel that our city is over building -- And the poor working people can not afford that great low housing.

I wish the city would do something to enforce the noise ordinance. There is no reason for citizens to suffer from loud motorcycles, cars, bass subwoofers, dogs that bark all day and night.

City Council and planning commission area joke! Obviously "planning" was not part of their long term plan. Too many developments = poor roads, weirdo's, more crime, major school problems, water problems, high cost of living, minimal wages, etc, etc. People focus on small stuff like smoking - What about potential murderers, those who drink & drive, drugs, abused children, abused women - the list goes on and on.

Do more for downtown stop kissing McWhinney's ass

We would like to see more Loveland government involved in the lowering and raising of the water in lake Loveland it was very disappointing to not have the public break open this summer.

I think it is time to table McWhinneys request in favor of seeking out and consider other developers. This is not a negative towards McWinneys as he has done a great job. There needs to be more consideration of pre teens and teenagers - things that can be provided that are unorganized. Athletic field stop begin built in favor of indoor swimming pools, real parks such as veterans park, and a large building where lock down dances and parties can be conducted for the benefit of the teenagers.

Why don't you do this online and save the postage???

Loveland could use a chlorinated outdoor pool!!!!(Besides Winona)

I would like to see our city govt. commit more resource to assist the low to moderate income residents. Assistance to homeless, like a mission and family- assistance for children is needed

I am sorry that the city council and Don Williams approved and helped Poudre hospital re-locate to Loveland. it will make a mess for McKee to thrive and continue as a 1st class hospital - very disloyal to our town.

I love the new sports pack-but we need a better outside pool. With crystal rapids closed, Winona crazy busy, it is hard to know where to go to swim (Boyd lake beach's, north lake are too dependent on water level! I would rather go to a pool with chlorine.

I would love to see better right of way and sign visibility around town. Why can't all city employees be used as an information network? Surely almost all of them drive around town. Can't they report blocked views at corners ,driveways and curves in the roadways? Cant they help report blocked traffic signs? Either that or have some average Joe report it.

More lane space on Madison & Highway 34 to I-25 must be a priority. Realizing 34 & I-25 are state & Federal roads, pushing them as priorities are critical. Madison from Silverleaf north can be widened.

We love Loveland! we love all the arts, bike trails, new businesses (especially restaurants). Parks and recycling are so good here. Would like to see Chilson expanded (especially the parking lot). Meth labs and increasing crime are getting scary though. would love the city of Loveland to allow online pay and/or automatic debit for utility bills.

Why is it that we only have one more road THROUGH THE CITY in each direction. Is this a Colo. law? Stop adding on the east side and let the west side be imposed and allow the north and south. For years the only growth on the west side has been homes, forcing everyone to come to town.

APPENDIX II – General Comments: 2006 Quality of Life Survey

Please clean storm drain on Melissa drive. My property floods every time we get a hard rain. (1441 Melissa drive- see photos) The street has only one storm drain for 3 blocks- it needs more. Julia Hatvig (970)2030718

I love our city and appreciate so much about what it offers and how it is growing, except the building-and the loss of over open space and the beauty and quality of community that goes with that.

In general we're very concerned about the school district. I realize that entity stands apart from city government but it is a significant issue for quality of life in Loveland. To drive daily past enormous administration facility I know many teachers who were laid off this year shows a significant failure to proper priority use of public tax dollars. Clearly this school district is Admin heavy and teachers light and it is showing in our grandchildren's educational experience in this town.

Highway 34 east needs work to handle the heavy traffic flow. Also the I-25 - 34 interchange is dangerous and needs to be redone.

The downtown area needs to be given priority regarding clean up; Storage why are repair shops allowed to have so many junk cars on property corner of 4th - Garfield- lot @ 7th street lot @ 6th street , I have thought there were codes placed on the books years ago on this

After the chair incident, it is obvious the city council thinks highly of themselves and has no regard for the public opinion. They ought to be ashamed of themselves. That money spent on the chairs could have been used to better the community.

I wish Loveland would attract more high paying jobs so I wouldn't have to commute to Denver. All new development going on seems to employ low-wage workers i.e. retail, restaurants, hotels

The baseball "rec" should be for recreation as it was designed. Not for competition. There are competitive leagues for such purpose. Coaches take the game go seriously at the recreational level.

Get the bike trails connected west of town. Example :The gap on the west of 29th.

I ride a bike. Trash along Eisenhower from Denver Ave .east out to Centerra is very bad. Especially on the north side-in the ditch, etc., I even saw a dead golden retriever in the ditch one day. I think it is now gone.

Skilled labor jobs, Loveland needs more blue collar jobs (industry) not retail, that's the working poor. Affordable housing and rentals. More assistance for entrepreneurs and small businesses owners. Accountability on city spending. No on the \$1,000.00 chairs spend our taxes wisely. Let us vote. We the people pay your wages.

Get rid of "secrets" i.e. Why or for what reason do people get released from their positions i.e. assistant city manager?? openness is the key to trust.

Police should arrest and fine people who light their own fire crackers, cherry bombs, etc... Nothing is done and every year it gets worse and worse. Bottle rockets land on my roof + with the drought it is a miracle that homes aren't burned to the ground. Why does the city allow fireworks to be sold? small children in my area light their own fireworks with their dumb parents "supervising"

We have lived since 1963. It is hard to be excited about the continued development going on around us. I doubt that we will stay here much longer. One thing that I am very proud of is Loveland's recycling program.

Love living here - keep up the good work!

The sidewalks need to become available on 287 and there needs to be a bike lane on Monroe where the bridge is

Drop the sales tax food.
school fees and water are too high.

I would like to see City Council improve things for the community. Sometimes it seems they approve things in the best interest of their wallets rather than the best interest of the people. I.E. not banning fireworks stands because a city councilman owned a few of them.

Loveland was 30000 population when we moved here 18 years ago and was a beautiful town. The growth (sickeningly excessive) has turned it completely around. Were we not so old (83 & 82) We'd move out in a minute. The developers and the city officials who have allowed it to happen.

We love living in Loveland. Our community is beautiful, safe, enjoyable.

APPENDIX II – General Comments: 2006 Quality of Life Survey

Lets change the name of Loveland to McWhinneyville since they OWN our city governments!

Life is getting too expensive in Loveland.

Lets control the Wal-marts and Walgreens. I believe (4) Walgreens are enough! highway 34 has enough abandoned buildings!!! This is a very pressing issue! thanks

Loveland is a great place to live!! I've been here for 12 years now and am concerned with too much growth in such a beautiful city- afraid it will become a big city like Denver with all the building homes and unneeded Banks.

Keep high level of education for our children.
2. Continue to strengthen all senior citizens facilities & services.

With all the growth most new jobs are low paying, temporary jobs with no benefits. Growth is only benefiting a small minority, not the middle class for sure. Promises of parks/recreation on the west side of town have not been kept, the growth on the west side has also been overdone with not one park! Time for council and the rest of the city management to wake up and quit just taking care of themselves.

I hope the results from this survey will be communicated to everyone. I also hope to see action in areas of concern in a timely manners without more surveys or "studies", more money and time is wasted on studies, then actually digging in and getting things accomplished. stop pacifying the McWhinney's.

Loveland when I first moved up here from Den.. Now I really don't like see the growth. Way too many houses and stores. That beautiful home town feel is fast disappearing from a person who loves the country side and smaller towns its sad

Shame on city council for spending \$900+/chair

I moved to Loveland 9 years ago because of its small town feeling and unique qualities. Those qualities have been compromised by the excessive commercial + residential development at Centerra and other areas Loveland has now become "any town America" because of the city councils desire to raise revenue at the expense of the citizens.

Loveland needs to encourage more use of natural resources i.e. solar energy. HOA's do not allow clothes lines on solar panels. I believe the city could step in and promote such items and in turn promote the city as eco-conscious.

We need safer, easier walking, biking access to MVHS an additional exit from parking lot.

We moved to Loveland to be nearer to work plus the hospital.

We need to crack down on driving and traffic violations. Every day, week, month is gets worse and worse- more dangerous. If we enforced existing traffic laws it would generate a lot of money and make a better quality of life, less accidents and road rage.

Water is a major concern. The narrows was started in 1902 and the canyon up to the Poudre in 1904 - for storage. Nothing has done. We can't stand much more development without more water storage.

The town needs a theater other than the Rialto in town. Not out at McWhinneyville. But then City Council always sells out to developers so it not a surprise. It's sad when I have to drive 10 miles in my own town to catch a movie. Build one downtown with daily features.

My biggest complaint is that city infrastructure is not keeping pace with new development - Centerra excepted. The roads out there are very nice. The roads in town are not great, schools overcrowded, etc. Loveland is a great town but these things detract from the quality of life here. Developers need to help out with this.

Need a good YMCA or recreational center where the teens can feel welcome and comfortable. Also need more police men, the meth problem has ruined this town, and many landlords do not keep their properties up, due to dropping rents and over building of multi family area- see McWhinney's and rated are way up the last 10 years.

Would like to see a bus stop closer to our area the nearest one is on 29th by Loveland High School. This makes using the bus system inconvenient especially in bad weather.

We enjoy living in beautiful Loveland.

APPENDIX II – General Comments: 2006 Quality of Life Survey

Regarding safety in my community and Loveland's police services: I think our police should be sent to Compton, CA or some hardened area to be trained, the police here have too much time on their hands and hassle motorists for stupid reasons, send them somewhere so they can see WHAT true crimes are. Loveland is too calm to train effectively

After living here 52 years we see a need for better, efficient, affordable senior housing. Housing that bridges the gap between those needing financial assistance and those moved here and want expensive housing. Many seniors wish to downsize into apartments but can't find secure apartments made for seniors (considering -no stairs, one garage, showers, wheel chair accessible, reasonable rent). Please check into this. Rent here is outrageous for decent secure areas compared to our surrounding cities.

You are over building. There are too many homes vacant. People can't rent their homes or sell them. There are too many bankrupts. Slow down on the building, we don't need them.

We both have master degrees. There are no jobs in Loveland that pay appropriately for our level of education and experience. Loveland needs to be aggressive in getting good companies in here.

We've been in Loveland since 1974- we chose it for its quaintness. Our children graduated from Loveland high + went onto college CSU + La State. It's a fine town. The downtown needs to be upgraded, restored and made more useful. Lots of galleries, restaurants, and shops and rialto

I think it's unfair to put a higher sales tax on consumers who shop in the Centerra area

US 34 should be widened to 3 lanes each direction. Madison should be widened to 2 lanes all the way to 29th. City should promote/require more water conservation methods.

The bureaucracy to get common sense things done is oftentimes ridiculous. i.e. re-striping US34 to relieve some congestion. Also city council spending \$10k on chairs is inappropriate.

Overall I have been happy with the quality of life in Loveland. Keep up the good work. Don't let business interests override community interests. Thanks for the opportunity to provide my input.

I think over all Loveland is a good place to live-just too many people have also found out about the area! But also know if you don't grow-you die!

Would like to see Mahaffey park finished

City does not need to be involved or concerned about affordable housing. market forces will tend to it.

Loveland is a very nice city, but is growing too fast. Hopefully we can control that? I support what the McWhinney's and the city have accomplished together.

Too many malls- too much buildings . Have lived here in Loveland for 38 years and Loveland has progressed well. Roads as always need repairing. We do need more stop and go signs. Wish downtown would develop more so people could do their shopping their like the good ole days.

With the rising cost of fuel, expand bike and recreational trails to take people to key and work areas. Expand bus routes. My closest bus stop is~ 1 mile away. We need to expand our recycling. I don't have any place to take plastic bags anymore, yet the grocery stores and most shops use them. I have to drive to Boulder to recycle soy milk containers. We need to expect more in our rapidly changing environment . How about bus service to Winnona pool in the summer?

The streets, curbs, gutters and sidewalks of North Garfield Ave. are in terrible condition...(north of HWY34)...they are not safe for handicapped persons (exception=streets) and are an eyesore in the middle of the city!

Great place but no job opportunities.

It appears the city is working the community quality of service- but- McWhinney comes first

Police activities should be more concerned with major crimes such as meth usage and gangs rather than harassing drivers trying to make DUI arrests

I think Loveland is a nice place to live

APPENDIX II – General Comments: 2006 Quality of Life Survey

I think Loveland is the best place to live this side of paradise. City government is approachable and responsive.

I think Loveland is the best. I love it. Paying for a service that I don't use just isn't right. I think this should be addressed. I like to see the jobs they say pay well. I am making the same I did 30 years ago. Could you live on the wage you made 30 years ago. A gallon of gas is almost 3.00. Take that away from a low paying job. I am a senior now, which I can hardly find employment who values my experience. I still have to make my house payment, electric, gas, and food. Yet they keep raising all the prices. They even try to add more footage on my property but I keep fighting it. More growth which I didn't vote for just put more money in the pocket of the rich. But this will prove to not be good in the future.

The Rialto & Loveland museum are outstanding. A dog park is needed. I'm looking forward to the downtown development across from the museum. Eisenhower is too congested. Thanks for asking

The Loveland police department needs to get its officers off their behinds and start ticketing all the people who run red light, who make right hand turns without stopping. I have seen them sit at a stoplight and a red light gets run, but because it is close to shift change if nothing is done about it.

Thank you--I love Loveland!! Put money into downtown. Make it shine. It is a great asset.

Internet use daily

Internet use - never. I found the city Police to be impolite, unhelpful, unavailable and it is apparent that too many drivers are allowed to break the rules--at times, right in front of them. Women the force found to be overbearing.

Internet use daily. Progress is not always massive growth. People choose to live in Northern Colorado because it has remnants of ranching, farming, and wilderness. You have complete control of growth and quality of life and you're blowing it. I'm California which has been trashed with uncontrolled growth. Please do not Californicate what's left of why all the people already here chose it. Stop now and save the shreds that are left.

Salaries in area do not keep up with the cost of living. Your local newspaper is outrageously expensive. Other than that, this is a wonderful place to live. My family is happy here.

Need Dog Park. Need Larimer County (Old) Fairgrounds back in action. This was a huge loss to the community. Support downtown.
