Lowland residents have some of the freshest, purest water coming straight to the tap from the snowy caps of the Rocky Mountains. How does that happen? It takes four reservoirs, canals, pipelines and hydroelectric power plants across eight counties including Larimer County. The primary source of Loveland's drinking water travels through the Charles Hansen Feeder Canal and is stored in Green Ridge Glade Reservoir. The reservoir is important because it Alone Loveland Water and Power to store water year-round. Green Ridge Glade Reservoir is located in West Loveland and can hold up to 8,402 acre-feet of water. That's enough water to fill 2,400 Olympic-sized swimming pools. The other 30 percent of Loveland's drinking water is drawn directly from the Big Thompson River. Both of these sources of water are mixed together as water enters the Loveland Water Treatment Plant. On average, the water combines with the snowmelt from the east side of the continental divide and is treated through a distribution system of reservoirs, canals, pipelines and hydroelectric power plants across eight counties including Larimer County. The primary source of Loveland's drinking water travels through the Charles Hansen Feeder Canal and is stored in Green Ridge Glade Reservoir. The reservoir is important because it Alone Loveland Water and Power to store water year-round. Green Ridge Glade Reservoir is located in West Loveland and can hold up to 8,402 acre-feet of water. That's enough water to fill 2,400 Olympic-sized swimming pools. The other 30 percent of Loveland's drinking water is drawn directly from the Big Thompson River. Both of these sources of water are mixed together as water enters the Loveland Water Treatment Plant. The Loveland Water Treatment Plant can treat a maximum rate of 30 million gallons a day. During the treatment process water is treated and filtered to insure that it meets and exceeds All State and Federal regulations. After that, the water travels through a series of underground pipes to homes and businesses in the community. Loveland also has five water storage tanks where water can be stored to insure residents always have an adequate supply. Because of the joint efforts of Northern Water and Loveland Water and Power, residents can turn on the tap and breathe easy knowing that clean, fresh water is always available and coming to their taps straight from the snowy caps of the Rocky Mountains. For more information about Loveland's water, visit us online at cityofloveland.org/WLP. Collect water and make your lawn healthier! Save Blue with a sprinkler inspection! City's farmers market delivers abundant produce and so much more

It's almost summer and that means the City of Loveland's Farmers Market is back again. For 17 years the Farmers Market in downtown Loveland on Lincoln Ave. has been going strong. Residents and visitors with local produce selling fresh food, music and dance, baked goods and other handmade products.

The market offers fresh produce, entertainment, plus food from local food trucks and home served at the hour of game.

The market is still recruiting egg Farmers to join the market. More information or to volunteer at the Loveland Farmers Market.

Residents invited to leave their mark in support of Loveland Public Library

The Friends of the Loveland Public Library are working on a variety of initiatives that will benefit the library. The Friends raised funds from the sale of the used books and will be able to purchase a new Summer Reading Program. The program will be free for all library patrons. For more information, please contact the Loveland Friends of the Library.

City’s farmers market delivers abundant produce and so much more

It’s almost summer and that means the City of Loveland’s Farmers Market at Mariana Butte is coming back to town.

For more information go to www.cityofloveland.org/biketowork.

Inscriptions can honor a loved one, mark an event or special occasion, and support of one of Loveland’s greatest community assets - our library. Each brick will be engraved with a personalized message and recognized by the Best of Colorado garden. Fund raised from the sale of the bricks will directly benefit the Friends of the Library, which raises money and promotes awareness for the Loveland Public Library. The funds raised will help support of children and families who cannot afford to participate in recreational activities offered through the City. The tournament starts with a 5 p.m. shotgun, Fri., June 9 at Mariana Butte Golf Course. A western-themed bicycle event in conjunction with Friday Night on the Town, June 3 – National Trails Day & Get Geared Up for Summer

Tee-off for Kids enables more kids to participate in City’s youth rec activities and is sustainable for generations of players. It’s a beautiful way to see our City and enjoy our recreation opportunities. It’s also a great place to come.

Fossil Creek Trail in Fort Collins.

Long View Trail in west Loveland of Hwy. 287, starts at Boyd Lake Recreation Planner. Meisel-Burns, said. “We want walkers and riders to be able to easily navigate from their homes and businesses to local destinations. Those connections will enable them. It’s a beautiful way to see our City and enjoy our recreation opportunities.

Kids can meet some of the artists. Pre-registration required online at www.cityofloveland.org/leisuretimes.

The Fairgrounds Park golf Course is coming back to town.

Fossil Creek Trail in Fort Collins – that has been the big boost of our trail work,” said Janet Meisel-Burns, Loveland’s Recreation Planner. Meisel-Burns, said. “We want walkers and riders to be able to easily navigate from their homes and businesses to local destinations. Those connections will enable them.

The market also offers entertainment, plus food from local food trucks and a beer garden.

To make sure the market is accessible to everyone, the market is being a part of the Americans with Disabilities Act. For more information, please contact the City’s ADA Coordinator at 962-3319.

City Update is also available around the first of every month on CityofLoveland.org/OpenLands.
City’s farmers market delivers abundant produce and so much more

It’s almost summer and that means the City of Loveland’s Pedal & Petal Farmer’s Market is coming back to town. For more information, please visit www.cityofloveland.org/farmersmarket.

Lowland residents have some of the freshest, purest water coming straight from the snow caps of the Rocky Mountains. How does that happen? It takes thousands of underground pipes to homes and businesses in the community. Loveland also has five water storage reservoirs, canals, pipelines and hydroelectric power plants across northern Colorado. The primary source of Loveland’s drinking water travels down the west side of the continental divide and is stored in the Colorado Big Thompson West Slope collection system. This system of reservoirs, canals, pipelines and hydroelectric power plants across eight counties including Larimer County. The primary source of Loveland’s drinking water travels through the Charles Hansen Feeder Canal and is stored in Green Ridge Glade Reservoir. The reservoir is important because it stores Loveland Water and Power to store water year-round. Green Ridge Glade Reservoir is located in West Loveland and can hold up to 6,400 acre-feet of water. That’s enough water to fill 3,400 Olympic-sized swimming pools. That’s enough water to fill 3,400 Olympic-sized swimming pools. The other 30 percent of Loveland’s drinking water is drawn directly from the Big Thompson River. Both of these sources of water are mixed together as water enters the Loveland Water Treatment Plant.

The Loveland Water Treatment Plant can treat a maximum rate of 35 million gallons a day. During the treatment process, water is treated and filtered to ensure that it meets and exceeds all State and Federal regulations. After that, the water travels through a series of underground pipes to homes and businesses in the community. Once there, the water combines with the snowmelt from the Rocky Mountains. That’s enough water to fill 3,400 Olympic-sized swimming pools. That’s enough water to fill 3,400 Olympic-sized swimming pools.

The City of Loveland’s Water Department is committed to providing clean, fresh, drinkable water to the residents of Loveland. We understand it is important to our residents to make sure their water is safe and free of any contaminants.

The City’s 2016 Consumer Confidence Report is available online at cityofloveland.org/WNP. The CCR is designed to assist our customers and to make sure they have information about their water supply as well as information about possible contaminants in our source water. The City’s Water Department encourages residents to review the information on the report and to be vigilant about the quality of the water coming into their homes.
