

The Loveland Burial Park and Lakeside Cemetery date back to the 1800's, and are rich in early Larimer County pioneering family history.

The 47-acre site consists of two facilities: Loveland Burial Park and Lakeside Cemetery. The two facilities are physically divided by Colorado State Highway 287. As a result of its central location, the cemetery and burial park are easily accessible to the community.

Due to grounds maintenance requirements, the cemetery and burial park are operated and maintained by the City of Loveland Parks & Recreation Department.

Maintenance Notice

Each spring, crews at the Loveland Burial Park and Lakeside Cemetery begin the annual process of picking up winter decorations and adornments that have been placed on graves. As in the past, all artificial flowers and adornments are taken off of graves in the flat marker sections. Worn and out-of-season decorations in the upright sections will be removed as well. If you have placed decorations or adornments that you wish to keep please remove them before April 1st. Properly placed adornments in upright sections, that are in good shape will be left alone. Between April 1st and September 30th live flowers **ONLY** will be allowed in the flat marker sections.

The staff at Loveland Burial Park and Lakeside Cemetery thank you for your assistance in keeping the grounds beautiful!

Planting & Decorations

General Care

In order to provide a natural and pleasant effect, and also to ensure proper drainage of the grounds, the grade of all grounds and interment sites will be determined by the Cemetery Supervisor, and altered or changed as needed. All grading and digging shall be done by the Cemetery Staff. The Cemetery Supervisor shall have charge of the planting of trees and shrubs for the landscaping of the grounds.

If **ANY** plant material within the cemetery interferes with pedestrian or vehicular traffic, impacts irrigation coverage, creates a safety hazard, covers the front of headstone(s), interferes with other objects within the cemetery, or with daily cemetery maintenance activities, the Cemetery Supervisor shall have the right to remove the obstruction when it is in the interest of the cemetery grounds. No one, except an employee of the cemetery, or by permission of the Cemetery Supervisor, shall be allowed to disturb the sod on any interment site and then only under strict supervision of the Cemetery Supervisor.

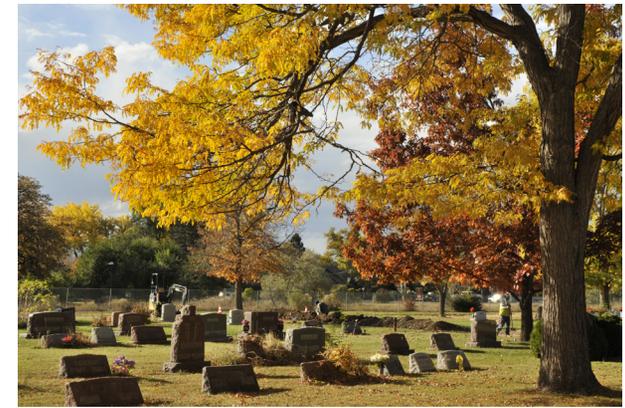

Personal Planting

After a flower bed is prepared or interment site is edged with sod, the owners may, if they choose, set their own flowers within eight (8) inches of the front of the base of monuments in upright sections **ONLY**, and any flowers must remain within the eight (8) inch border and must not exceed eight (8) inches in height to keep from blocking the writing on the front of the headstone. Flowers shall not be permitted at the back of monuments. Flowers shall be permitted at the sides of monuments only when authorized by the Cemetery Supervisor and depending on the size of the monument. Planting trees or shrubs shall only be allowed under the provisions of donations.

Interment certificate owners wishing to remove plants, flowers, shrubs, or trees from their interment sites must have verbal permission from the Cemetery Supervisor, and no person shall be permitted to interfere with or disturb any trees, plants or shrubs within the bounds of the cemetery.

Other Decorations

Nothing shall be placed upon interment sites other than flowers and wreaths. Evergreen blankets & evergreen wreaths are permissible October 1 to April 1. All decorations must be firmly secured or fastened to the ground or memorial and shall be removed when they become unsightly. Chairs, settees, glass cases, grave covers, toys, or any other objects that may be deemed by the Supervisor as objectionable, shall be removed without notice. Fencing, railings, copings, or other enclosures around interment sites, wood trellises, arches and headboards of every description are positively prohibited.

Acceptable Flowers & Decorations

Examples of acceptable flowers include geraniums, petunias, and pansies. Unacceptable flowers and plants include: rose bushes, peonies, irises, lilies, lilacs, trees of **ANY** kind, vines, spreading ground cover, and juniper bushes.

Only live, cut flowers in approved vases are allowed in the flat marker sections from April 1 to October 1. Decorations for Mother's Day, Memorial Day, Father's Day, and Independence Day may be placed a week before the holiday and left for two (2) weeks after. If you wish to have your decorations back, please remove them within that two (2) weeks. All decorations that are left will be picked up by Cemetery Staff and disposed of.
