**CyCle 2**

**CyCle 3**

Keep your lawn healthy and save money this summer by using the “cycle and soak” watering method. Cycle and soak is an irrigation technique where water is applied in multiple shorter cycles. Dividing your irrigation cycle into two or three parts allows your dirt to better absorb the water.

**WHY:**
- Allowing water to soak in the soil fully prevents run-off and improves water efficiency. This can help save water and keep your utility bill low this summer.
- Improves the health of your lawn.
- Allowing grass to have the time to properly absorb the water.
- Helps save water and keep your utility bill low.
- Helps save time for infiltration when irrigating.
- Helps save water longer to soak in.
- Helps save water and keep your utility bill low.

**TIP:**
- Adjust cycle settings into your irrigation controller and make this process automatic!

**CycLe**

1. Allowing water to soak into the soil fully prevents run-off and improves water efficiency. This can help save water and keep your utility bill low this summer.
2. Improves the health of your lawn.
3. Allowing grass to have the time to properly absorb the water.
4. Helps save water and keep your utility bill low.

**WHoT:**
- Simply take the total watering time for an area and divide it into multiple cycles.
- Simply take the total watering time for an area and divide it into multiple cycles.

Loveland emergency responders need citizens’ help to deal with illegal fireworks

Like most Americans, Loveland residents look forward to the Fourth of July and other summer holidays. However, illegal fireworks can be dangerous and illegal.

Illegal fireworks such as bottle rockets, cherry bombs, mortars, M-80s and Roman candles send pets running for cover and cause neighbors to suffer. They also cause serious eye injuries, severe burns, broken bones and fires. They can be profoundly disturbing to veterans or anyone suffering from PTSD.

In Loveland, illegal fireworks are dangerous, illegal and illegal. Fireworks use creates a single location to start a fire and a huge cloud of smoke that pollutes the air. They are also illegal and can be legally seized by law enforcement. A single firework that is thrown at a home can cause serious injury and death.

Citizens should avoid illegal fireworks this summer. Fireworks use can be dangerous and illegal. Illegal fireworks can cause serious physical and mental health problems. They can also cause property damage and loss of life.

Citizens can report illegal fireworks use by calling 962-2727 or 911. The City of Loveland will issue a citation and may confiscate illegal fireworks assets. The City of Loveland has a zero-tolerance policy for illegal fireworks.

Citizens are encouraged to report illegal fireworks use. Let’s keep Loveland safe and legal this summer. Call 962-2727 to report illegal fireworks use.
Loveland emergency responders need citizens' help to deal with illegal fireworks

Although some community members are already working to enforce the law, others say they need citizens' help to deal with illegal fireworks.

According to Assistant Police Chief Gary Brown, 410 complaints were received last weekend on the July Fourth holiday. "There's nothing in progress for the officer to arrest the violators and the officers cannot help the neighborhood return to normalcy," said Brown. "We cannot help the neighborhood return to normalcy.

The noise and aggravation stop. And the number was 410 – a 37 percent increase over last year."

Brown said that when an officer arrives, there is no one there to arrest the, there is no one there to arrest the.

While catching people in the process of the fireworks, officers may have to take action. Brown said that in the past, the city has paid $100 for the residents, and that fines are generally less. They may have to take action.

The city of Loveland Fire Rescue Authority, that maintains neighborhood peace and normalcy, cannot help the neighborhood return to normalcy. While catching people in the process of the fireworks, officers may have to take action.

RECOGNIZED AS A RELIABLE PUBLIC POWER PROVIDER

Diamond-level Reliable Public Power Provider (RP3)® designation from the American Public Power Association for providing reliable and safe electric delivery.

Loveland Water and Power has earned a Diamond-level Reliable Public Power Provider (RP3)® designation from the American Public Power Association for providing reliable and safe electric service. Ted James, Manager of Distribution Operations at Jami Cooper, South Carolina and chair of the Association’s RP3 Review Panel, presented the designation on April 30 during the Association’s Annual Engineering & Operations Technical Conference held in Raleigh, N.C. The RP3 designation, which lasts for three years, recognizes public power utilities that demonstrate proficiency in four key disciplines: reliability, safety, workforce development, and sound business practices. Criteria include sound business practices and a utility’s ability to maintain a reliable and safe delivery of electricity.

With Home Performance Packages, you can:

- Lower your utility bills
- Use less energy
- Have a cleaner, more comfortable home
- Reduce greenhouse gas emissions

Visit.Landing Water and Power to learn more. Simply call (303) 999-3824 or sign up at resourcecentral.org/sprinkler to schedule.

ART. WEDNESDAY, JULY 1: Maui O Midyke is performing at the Rialto Theater, 321 N. College Ave. Tickets are $15 in advance or $20 at the door. Maui O Midyke is a performance by legendary singer-songwriter Patty Larkin and a full schedule of cheap-date movies, old and new. This can help save water and keep your utility bills low this summer. Plan a day of relaxing outdoor activities or sign up at resourcecentral.org/sprinkler to schedule. The seven-day sprinkler cycles into your irrigation controller and makes this process automatic! Simply call (303) 999-3824 or sign up at resourcecentral.org/sprinkler to schedule.

**WHY:**

- Keep your lawn healthy and save money this summer by using the “cycle and soak” watering method. Cycle and soak is an irrigation technique where water is applied in multiple shorter cycles.
- Dividing your irrigation cycle into two or three parts allows your dirt to better absorb the water.
- The soil type in the front region is primarily clay. The space between particulars in clay is small and it takes water longer to soak in.
- For clay soils LWP recommends allowing more time for infiltration when irrigating.

**HOW TO:**

1. **Divide water to soil in the front and back portion of your lawn.**
   - Allow watering to soil to fully prevent run-off and improve water efficiency. This can help save water and keep your utility bills low this summer.
   - Improves the health of your lawn.
   - Allows you to have the time to properly absorb moisture due to your water use.

**TIP:**

- Using cycles into your irrigation controller and makes this process automatic! Simply call (303) 999-3824 or sign up at resourcecentral.org/sprinkler to schedule.

Goldstein’s Footsteps of My Ancestors covers all of that territory and more. "I use humor and satire to present my work," she writes, adding that her heritage as a member of the Salish-Kootenai Nation and a cultural arts worker…she begins with a redefinition. "I define myself in all of that territory and more."

This edition of City Update draws partly from our Cultural Services Department’s quarterly magazine, “Aha!” in June it joins a promising list of books by Native American artists within the last decade. Find all the details in the electronic version of “Aha!” at www.cityofloveland.org/Aha. WALK THE GALLERY

One of America’s most accomplished and celebrated Native American artists opens an exhibit at the Loveland Museum on July 1. Extending the museum’s long tradition of bringing the highest-quality art exhibitions to our city. This exhibit is a part of the museum’s commitment to present only the finest indigenous talents in the United States, has gained an international reputation for her cross-cultural reach into themes such as conflict, compassion, identity. The July opening of “In the Footsteps of My Ancestors” covers all of that territory and more.

Her published artist’s statement begins with a redefinition. "I see a cultural art form for me," she writes, adding that her heritage as a member of the Shoshone-Bannock Nation in Montana guides that work.

"I see humor and satire to present..." (see Overflow page 2)
Keep your lawn healthy and save money this summer by using the “cycle and soak” watering method. Cycle and soak is an irrigation technique where water is applied in multiple shorter cycles. Dividing your irrigation cycle into two or three parts allows your dirt to better absorb the water.

WHY: To improve water efficiency, prevent water run-off, and improve water efficiency.

BENEFITS:
1. Allowing water to soak into the soil fully prevents water run-off and improves water efficiency. This can help save water and keep your utility bill low this summer.
2. Improves the health of your lawn. Just like a car, your sprinklers need an occasional check-up. With Home Performance Packages, keep your lawn healthy. It’s easy to sign up and get long-lasting results!

HOW TO:
Simply take the total watering time for and divide it into multiple cycles. Simply take the total watering time for and divide it into multiple cycles. For example, instead of running for 15 minutes, set your sprinklers to water three times at 5 minutes. Wait 30 minutes to an hour before watering again.

TIP: Program cycles into your irrigation controller and make this process automatic!
