Adult volunteers needed to help teach environmental education to youth

"The City of Loveland is dedicated to teaching people the importance of protecting our environment," said Celeste Leger, the City’s environmental education specialist. "With the help of our adult volunteers, we can educate kids on the importance of living sustainably and becoming environmentally aware." Volunteers are needed to help teach environmental education to youth as part of The City of Loveland’s Children’s Day celebration.

Volunteers will assist in teaching lessons on topics such as conservation, biodiversity, and sustainability. Lessons will be delivered through interactive activities, games, and hands-on demonstrations. Volunteers will be provided with lesson plans and materials to facilitate the learning experience.

Volunteers will be needed for the following activities:

- 10 a.m.-3 p.m., Science & Nature
- 11 a.m.-2 p.m., Art & History
- 11 a.m.-3 p.m., Art & History
- 10 a.m.-noon, Plow and Trash
- 11 a.m.-3 p.m., Science & Nature
- 10 a.m.-noon, Plow and Trash

Volunteers will be paired up with experienced children’s educators to ensure a smooth and successful day of learning. Volunteers will receive a t-shirt, a snack, and a certificate of participation.

To sign up, visit larimerworkforce.org/energy or call 970-498-6660.

City’s affordable housing partners
The City of Loveland and the Loveland Housing Authority are working as partners to address the housing needs of Loveland’s residents. The City’s affordable housing program, which includes the Grace Gardens and Glenwood Place developments, is made easier by Loveland’s shoulder-to-shoulder with private and public agencies, having a desire to seek opportunities to work together and to make an impact.

FLOOD WARNING

When a Flood Warning is in effect, stay informed, because flash flooding is possible. 

A Flash Flood Warning is issued when river or stream levels are rising rapidly or already at levels that cause immediate danger to life and property.

Keep it CLEAN ‘Cause we’re ALL Downstream!

MAKING SIMPLE CHOICES PREVENTS WATER POLLUTION.

When it rains or snows the water has to go somewhere. Know where it goes on your property and take steps to keep runoff clean and moving toward laterally.

When it rains, keep your driveway and garage clean to ensure that the water that falls on your roof and sidewalk goes directly to the storm drain. The usual result is clear, clean water for your property. Maintain grass areas and keep stormwater from pooling on your property.

Bleach and laundry products make excellent fertilizer for your lawn, which helps the fish live. Use them as substitute for fertilizers.

You can turn your radio to the news for the latest information.

DISASTER SURVIVAL KIT CHECKLIST
