Did You Know?

- The City of Loveland has 5 EVs in its vehicle fleet!

In February, the City of Loveland received a grant from the Colorado Energy Office (CEO) to install four Level 2 charging stations for city vehicles. These EV chargers use a higher output 240-volt power source, like the one on your own or others' properties. Charging times are much shorter than with a Level 1 EV charging station. A 240-volt Level 2 charger can fully charge a Mercedes 250e in three hours.

NEW WATER QUALITY LAB BREAKS GROUND

In 2020, the City of Loveland broke ground on a state-of-the-art laboratory facility that will combine water and wastewater quality services into one location to increase reaction times when issues arise, improve safety for lab staff and enhance water quality for the City of Loveland. Although drinking water and wastewater quality are governed by separate requirements, the combination lab will serve both utility lines and help eliminate the need to outsource work. This new facility will be open eight times larger than the two present labs combined. With this expansion, building and instrumentation will be taken out of the lab and into a new building with catering equipment that analyzes water, wastewater, and source water for numerous parameters—including lead and copper and taste and odor complaints. This lab will also include a new chemical storage facility, gas storage facility, and a state-of-the-art air reclamation system that is not only energy efficient but safer for employees. A new separation of lab space and office space will reduce the risk of staff exposure to hazardous materials.

CELEBRATING DRIVE ELECTRIC WEEK 2019 (SEPTEMBER 14 – 22)

The City of Loveland has three charging stations around the city that are available for public use. All of these charging stations are equipped with Level 2 chargers and cost 51 cent per hour of charge.
- Service Center Parking Lot - 270 North 9th Avenue
- Civic Center Parking Lot - 5th Street and Monroe Avenue
- Midland Medical Center Parking Lot - 5000 North Boise Avenue

Need to find another plug?
Visit PlugShare.com or AFDC.energy.gov for more charging locations.

How we call ourselves ‘creative’

‘Creative District’ designation would amost Loveland's commitment to art

Loveland sets the city apart from others. Here is the entry. Loveland stands alone in the Northern Colorado landscape as the only major city that lacks an official designation, granted by the state, for a Colorado Creative District. Currently, there is one. So far.

Addition of outdoor concerts at The Foundry makes for One Sweet Summer

The Loveland Downtown Development Authority has received the marker of a Colorado Creative District, and has applied to receive the citywide certificate. Free-standing districts are a way to attract investment, showcase the city’s creative assets and enhance the city’s reputation.

Loveland Loves to Read heightens awareness for wise use of water

This summer, Loveland Loves to Read will moderate the Colorado Water Conservancy’s annual Water in the West: A Book Discussion Series, presented at 7 p.m., Tuesday, Sept. 24 at Robert Price Auditorium, as part of Downtown Loveland’s One Sweet Summer events. The new concert series at The Foundry Plaza is being presented by the Loveland Loves to Read and Poet in the City series.

Water conservation is the focus for the next few weeks. The Loveland City Update will appear online only.

The city that once prided itself on its small-town charm is now a creative hub, according to the city’s Cultural Services Director, Susan Ison. "It gives the members of our arts community a place to shine," she said. "The bulk of the funding for which we might not be otherwise entitled to receive this, had we sought it," he said. "The bulk of the website will be updated with upcoming meetings and other news about the City’s applications, and to other creative districts statewide."

How we call ourselves ‘creative’

‘Creative District’ designation would assist Loveland’s commitment to art

Loveland’s reputation as a crucible for creativity is secure, since the city has attained national recognition for its commitment to fostering visual art that is on view throughout the community as well as displayed abroad. Weigle said the designation as a ‘Creative District’ by the Colorado Division of the Arts is a significant number of venues. We have hosted a national art competition which ‘creatives’ can thrive in their work as designers and architects, brewers or chefs. The city’s success in forging its brand as an art-and-culture hub
