Release Date: January 6, 2012

FOR IMMEDIATE RELEASE

The City of Loveland hosts a public open house for Mehaffey Park.

The public is invited to an open house for the design of Mehaffey Community Park. The Parks and Recreation Department will present the Mehaffey Park master plan at an open house 4:00 - 6:00 p.m., January 19 at the Senior Center, 700 East 4th Street, Loveland CO. Please park and enter the building from the senior center entrance.

Mehaffey Park is a 60-acre community park planned for construction this fall to serve the west side of Loveland. Mehaffey Park is located west of Wilson Avenue, north of 22nd Street and south of 29th Street.

The open house is informal with no presentation or group discussions. Citizens can view the plan and speak one on one with staff regarding the proposed master plan prepared by AECOM consulting firm.

The consultant team has been working on the preferred master plan since the December workshop. The City received 138 comment forms from the community with suggestions for park facilities and site amenities. Master planning of the park should be completed in February and construction of the park will start this fall. The property will be annexed and platted during the master planning and development review process.

For additional information regarding the project progress, schedule and updates, please visit www.CityofLoveland.org/Mehaffey
