Loveland services about $5 per day

Top-quality water
Loveland residents enjoy high-quality, great-tasting water at a fraction of the cost of bottled water. The city pays less than $0.10 per 1,000 gallons served to its customers. The city’s water systems are the best in the state and among the best nationally. The city is a member of the Western Interstate Water Supply Compact, which guarantees a steady flow of water to the community even during the driest of years.

Parks, playgrounds, and trails
In addition to the 11 neighborhood parks, three larger parks (Elkland, Island Park, and Kiwanis) are located in the central area of the city. These parks offer a variety of amenities such as tennis courts, baseball fields, soccer fields, basketball courts, volleyball courts, restrooms, and grassy areas. Additionally, there are over 10 miles of trails in the city, including the Rec trail, which is a network of multi-use trails that connect downtown to the city’s parks and neighborhoods.

Public Art
Loveland is well-known for its public art, with over 30 permanent sculptures scattered throughout the city. These sculptures range from abstract works to more representational pieces, and are installed in parks, plazas, and other public spaces.

Clean streets
The city’s Street Department is responsible for keeping the streets clean and safe. They perform a variety of tasks, including street sweeping, trash collection, and graffiti removal. The department also maintains streets and curbs, which involves installing and maintaining curbs and gutters, as well as repairing potholes and other street damage.

Strong fire department
In case of a fire, the city’s fire department is always on duty. The department is staffed 24/7 with a variety of firefighters, including trained drivers who can respond quickly to any emergency situation. The department also has a variety of specialized units, such as the Technical Rescue Team and the Hazmat Team, which are trained to handle specific types of emergencies.

Public safety
Loveland’s crime rate is lower than the national average, which helps to make the city a safe place to live and work.

Public transportation
Loveland is served by the Weld County Transportation Authority (WCTA), which operates a bus system that connects the city to Fort Collins and other nearby communities.

Waste disposal
The city’s Waste Management Division is responsible for managing the city’s waste disposal needs. They provide curbside garbage pickup and recycling services, as well as landfill operations.

Recycling
The city of Loveland has a comprehensive recycling program that encourages residents to reduce, reuse, and recycle. The program includes curbside recycling, drop-off centers, and recycling bins at city facilities.

Electric utility
The city’s electric utility, Loveland Power, provides reliable and affordable electricity to residents. The utility is committed to providing high-quality service and promoting energy efficiency.

Water utility
The city’s water utility, Loveland Water, provides clean and safe drinking water to residents. The utility is committed to protecting the city’s water resources and ensuring a reliable water supply for the future.

Sewage utility
The city’s sewage utility, Loveland Sewer, is responsible for keeping the city’s sewers clean and free from blockages. The utility provides curbside sewage pickup and maintenance services.
