Sales and Use Tax Exemption on Pesticides

Purchases of pesticides under the Pesticide Act are exempt from City of Loveland sales tax when purchased from a licensed and registered dealer.

Substances not registered for agricultural use are taxable and any purchase from a non-registered dealer is taxable.

Licensed pesticide dealers can inform their customers about pesticides that are registered under the Pesticide Act. Any pesticide qualified for agricultural use will have a statement on the packaging in the “Worker Protection Box,” or in the “Directions for Use.”

Contact the Colorado Department of Agriculture, (303) 239-4144, to obtain the “Restricted Use Pesticides Dealer List.”
